TERMINAL DISCLAIMER TO OBVIATE A DOUBLE PATENTING
 REJECTION (37 CFR 1.321(b))

The Honorable Commissioner of Patents and Trademarks
 Washington, D. C. 20231

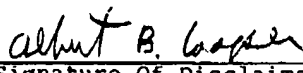

Sir:

The Petitioner, Unisys Corporation, a Corporation of Delaware, having a principal office at Unisys Way, Blue Bell, PA 19424, represents that it is the Assignee owning the whole of this invention and all of the interest in the above-identified application. The assignment granting common ownership of the United States Patent No. 6,161,135 and the above-identified application to the Petitioner were recorded on March 7, 1997, on Reel 8468, Frame 0533. The Petitioner states that the evidentiary documents have been reviewed and certifies that, to the best of the Petitioner's knowledge and belief, title is in the Assignee.

Petitioner hereby disclaims the terminal part of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term of United States Patent No. 6,161,135, and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to United States Patent No. 6,161,135, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors or assigns.

The Petitioner does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of United States Patent No. 6,161,135 in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321(a), has all claims cancelled by a re-examination certificate, or is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title stated above.

Please charge the fee required under 37 CFR 1.20(d) of \$110.00 to the account of Unisys Corporation, Account No. 19-3790. Authorization is granted to charge any fee deficiency required by this paper to Account No. 19-3790. A duplicate of this disclaimer is attached.
